To whom it may concern

**Re: Mr Phiwayinkosi Buthelezi, Id No 0104095301081, Cell no 0774751018**

Mr Phiwayinkosi Buthelezi was seen here today for a general medical examination. He will apparently start working as a construction worker in January 2026.

Mr Buthelezi has no medical history of note. He has never been hospitalised, never had any surgery, is not taking any chronic medication and is not known to be allergic to anything. No family history of note. He smokes 4 cigarettes per day, has 2 to 4 beers per month. Not taking any other drugs and doesn't have any other complaints.

On examination then, he is a 24 year old healthy man, weighs 59kg, 175cm tall. Temp is 37 degrees Celsius. Blood pressure is 120/70 mm Hg, Pulse is 76/minute regularly regular.

He has acne scarring on his face. His chest is clear, heart sounds are normal, abdomen soft, not tender with no abnormality detected and no sign of any hernia.

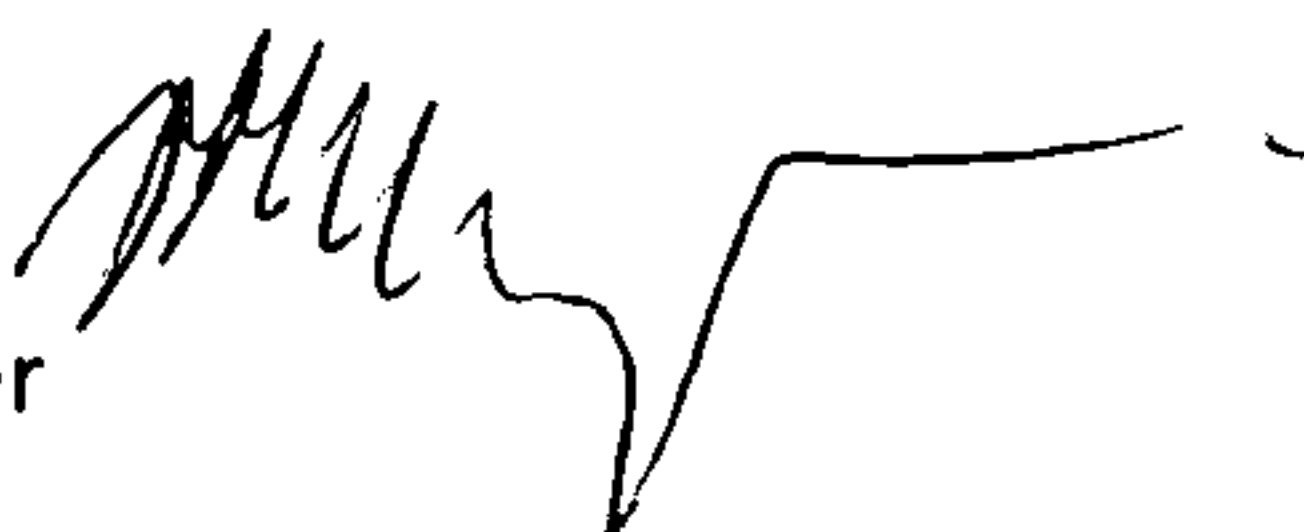

He is neurologically intact, without any physical deformity; hearing, speech and higher functioning is normal. Vision is 6/6 Snellen.

A urine Dipstick on a sample voided in the surgery is clear.

In conclusion, Mr Buthelezi seems to be a healthy 24 year old man who is fit for duty.

Yours

Dr DJ Meyer
